Commissioner Works moved to approve Resolution 201202. Commissioner McIntosh seconded, motion passed 3-0-0.

Ray Shannon, Allen County Animal Rescue Foundation (ACARF) representative, reminded the
commission ACARF was formed in 1995 by private citizens with a goal to build and operate a
shelter for abused, stray or abandoned animals in Allen County. Building cost estimates were
solicited and fund-raising begun. They found the annual increase in funds gained a little over
the annual increase in cost. In 2008, a private donor offered $60,000 on the condition the shelter
be started and reach a point of substantial completion before this fund would be released.
They are a 501(c)(3) and received their public charity status confirmation in 2002. Their
accumulated funds were not sufficient to complete the installation and a loan was arranged
through Community National Bank. The shelter opened in early July 2010. A non-salaried board
of director is appointed annually.

Ray requested $50,000 for aid to continue and expand operations. He stated at current rates
they project a need for an additional $4,000 a month to maintain a quality operation. They are
working to cover this operating loss with grant money and expanded fund raising. He
mentioned hundreds of Allen County citizens have been involved in supporting the shelter
through fundraisers and donating thousands of dollars of personal funds to make adoption
possible for more families. He allowed those donors could only do so much.

The shelter consistently runs 50 to 55 each of cats and dogs. They do not euthanize to provide
room for new animals. Discussion followed. Commissioners stated they would take the request
under consideration.

Bill King, Public Works Director, mentioned that next week they will be discussing and choosing
an engineer for Allen County Airport environmental study project.
Bill reported there is a 120' radial stacker located in Neosho County that he is going to view. Discussion followed on the benefits of a longer stacker for the Allen County crusher in the quarry. Commissioners authorized Bill to spend up to $20,000 if it looked sufficient.

Bill approached the discussion of raises. He stated we have employees that handle millions of dollars and drive half-million-dollar equipment. Chairman Francis stated he would like the commission to consider a 3.6% COLA for every employee and .25 cents raise to be based on merit according to department heads. He stated he was proud of the support the employees have had in being patient since they had not received raises for three years. Commissioner McIntosh and Commissioner Works will come up with some options on raises. Together they will review the different options. Commissioners stated they want to see where the County Funds are after January 5th’s payout. No action was taken at this time.

Alan Weber, Allen County Counselor, updated commission on the hospital.

Thomas R. Williams, Allen County Sheriff, and Harry Lee, Jr., citizen, joined to observe the meeting.

Alan discussed the proposed EMS Citizens Review Committee. Commissioners requested Alan to work on instruction for the proposed committee for guidance. Currently the agreement is three individuals are to be appointed by the City of Iola and three from Allen County. Sheriff Williams suggested they involve more of the county and other cities within Allen County. Commissioners requested Chairman Francis visit with Bill Shirley, City of Iola Mayor, concerning the size of the proposed committee.

Commissioners discussed appointments to an ambulance committee.

Bids were received from American Response Vehicles for a brand new 2011 AEV TRAUMAHAWK TYPE III for $141,546 with delivery 120 to 150 days or a demonstrator 2011 AEV TRAUMAHAWK TYPE III for $136,458 with delivery within 30 days; Emergency Services Supply for a 2011 Osage #2168 Type I for $137,550 with a delivery date of 150 – 180 days; and Rocky Mountain Emergency Vehicles for a 167" Superliner Type III for $146,505 with a delivery date of 150 –180 days. Commissioner McIntosh moved to purchase the demonstrator ambulance from American Response Vehicle for $136,458. Commissioner Works seconded, motion passed 3-0-0.

WHEREAS, the state of Kansas plans to transform Medicaid through additional privatization by adding another system of contracting with three managed care providers, and;

WHEREAS, the proposed privatization with three managed care vendors calls into question which administrative entity and appeal structure is ultimately responsible for long-term care services and supports for persons with intellectual and developmental disabilities, and;

WHEREAS, the life-long need for long-term services and supports for persons with intellectual and developmental disabilities is not reduced by providing enhanced medical and behavioral health care coordination, health homes, and preventative healthcare, and;

WHEREAS, persons with intellectual and developmental disabilities can benefit from plans to provide enhanced medical/behavioral healthcare coordination, health homes, and preventative healthcare to improve health outcomes, and;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS, ALLEN COUNTY, KANSAS THAT:

3. Include intellectual and developmental disabilities in proposed Medicaid managed care plans for integrated medical/behavioral healthcare coordination, health homes, and preventative healthcare to improve health concerns, and;

5. Protect vulnerable Kansans by thorough and open vetting of potential managed care vendors for history of Medicaid fraud/abuse of public funds, customer satisfaction/timely reimbursement for services delivered, and historical performance of improved health and financial savings outcomes.

Espy works on contingency; if our organization does not benefit financially from the audit, Allen County would owe Espy nothing. Espy only charges its clients for revenue recovered on savings and credits created in the subsequent 12-month period. They are truthful and honest evaluations from an independent firm. They are not a service provider. Espy has reliable recommendations from telecom professionals, revenue recovered with very little time investment (minutes not hours), and 100% transparency from our personal auditor.

Requirements to get started are to complete 2 simple single page forms, copy the front page of each telecom bill & summary pages from each mobility bill, and fax or email to our Espy sales consultant. Linda listed the benefits as peace of mind—knowing that our telecom invoices are accurate, recovery of overpayments in the form of refunds and credits, lower monthly bills, reduction of telecom costs for future billing. Commissioners received a letter from Southeast KANSASWORKS, Inc. Executive Director Renea Cavaness: Recently, staff from the state of Kansas attended a meeting in preparation for an audit of the state of Kansas in regard to federal funds received and administered in association with providing employment services throughout the state. As part of that meeting, it was explained that the federal auditors desired to review the organizational documents of the five Local Workforce Investment Areas in Kansas. One of those documents is a written agreement between the chief elected officials (CEOs) of the counties comprising the Local Area concerning the organization of a Chief Elected Officials Board (CEO B) and apportionment of disallowed costs. None of the current staff of the Local Workforce Investment Area was present when the Area was originally constituted more than a dozen years ago. Until now, there have been no operational issues or disallowed costs to bring focus on the existence of this agreement. However, it is mandated by the federal regulations found at 20 C.F.R. Section 667.705(c) and Kansas Policy 3-04-00. Without it, the federal government would be at liberty to assess a disallowed cost upon its own terms.

The Kansas Department of Commerce, as the state’s representative, has contacted the Local Workforce Investment Areas without current written agreements between the chief elected officials (CEOs) of the Local Area requesting that an agreement be executed and placed on file. In response, the attached agreement was drafted and is being circulated for execution by the chief elected officials (CEOs) of the counties comprising the Local Area.

Kansas Works requested Commissioners review and approve:

**CHIEF ELECTED OFFICIALS AGREEMENT**

**Kansas Workforce Investment Area V**

This Chief Elected Officials Agreement, hereinafter referred to as Agreement, is entered into by and among the Kansas counties of Allen, Anderson, Bourbon, Chautauqua, Cherokee, Coffey, Crawford, Elk, Greenwood, Labette, Linn, Lyon, Miami, Montgomery, Neosho, Wilson and Woodson, which together comprise the Kansas Workforce Investment Area V as designated by the state of Kansas pursuant to the federal Workforce Investment Act of 1998 (Public Law 105-220, August 7, 1998), hereinafter referred to as WIA. This Agreement is intended to comply with Section 117(c)(1)(B) of WIA, which provides that where there exists multiple units of local government within a Local Area, the chief elected officials of those governments are to enter into an agreement which defines their responsibilities.

I. Establishment of CEO Board

There is hereby established a Chief Elected Officials Board, hereinafter referred to as the CEOB, to provide for the effective planning, coordination and implementation of the employment and training system within the Kansas
Workforce Investment Area V, pursuant to the provisions of WIA and applicable federal and state regulations. For purposes of representation on the CEOB, Local Area V is subdivided into five (5) regions: Region I consists of the counties of Chautauqua, Elk and Montgomery; Region II consists of the counties of Cherokee, Labette, and Neosho; Region III consists of the counties Miami, Linn, Bourbon, and Crawford; Region IV consists of the counties of Anderson, Allen, Wilson, and Woodson; and Region V consists of the counties of Coffey, Greenwood and Lyon. The CEOB shall be comprised of one (1) representative elected from each of the Regions. The term of CEOB members is two (2) years starting with January 1 of the even years and ending December 31 of odd years for representatives of Region I and Region IV, and from January 1 of off years and ending December 31 of even years for members from Region II, III and V.

II. Responsibilities of CEO Board
The CEOB is hereby empowered to appoint a Local Area Workforce Investment Board, hereinafter referred to as the LWIB, for the Kansas Workforce Investment Area V, pursuant to the provisions of WIA and applicable federal and state regulations.

The CEOB is hereby further empowered to be designated as the Grant Recipient for the Kansas Workforce Investment Area V and to jointly provide for the effective planning, coordination and implementation of the employment and training system within the Kansas Workforce Investment Area V in accordance with the provisions of an agreement between the CEOB and LWIB, implemented pursuant to and in compliance with the provisions of WIA and applicable federal and state regulations.

The CEOB is hereby further empowered to establish by-laws.

III. Responsibility for WIA Funds
Liability to repay amounts from funds received under WIA, legally determined to be a misappropriation of funds received by Local Area V due to: 1) willful disregard of the Act and accompanying rules and regulations, 2) gross negligence, or 3) failure to observe accepted standards of administration (referred to as an "audit exception" or an "administrative finding") shall be determined by the proportion of the total population of each county in comparison to the total population of Local Area V.

IV. Term
The term of this agreement shall commence on January 1, 2013, and shall terminate December 31, 2014. Subsequently, this agreement shall be deemed automatically renewed and extended for sequential two year terms on the terms and conditions herein provided.

Vada stated she serves on the ambulance committee. She reviewed the strengths, weaknesses, opportunities, and threats that are broken out within HR, Policies, Finance, Education System, Clinical Care & Transportation, Facilities, Public Access, Communication System, Medical Oversight, Quality Improvement Evaluation, Information Systems, Public Information, Education & Relations, Prevention, Integration of Health Services and EMS Research as provided by the State of Kansas Emergency Services Department findings report.

Tom stated the committee has decided one service is best for the county and is trying to figure out the best way to solve the situation. Commissioner Works stated he felt the best way would be for the committee to make the recommendation to the City of Iola who is the one that has to make the change because the County is the Ambulance Service and the City of Iola is duplicating services. He stated if the County decided to contract the City of Iola then if things got out of control the county commission would not have control over personnel, would have no vehicles, building, etc. and would have to be started all over again. The same reason this all started to begin with is because the county had no accountability from the city employees.

Jason stated Ron Conway is not allowed to bring a proposal to Jason without first going through the City Council. Discussion followed. Several advised Vada to take this to the City of Iola Council for discussion. Larry Tucker, City of Humboldt Administrator, on behalf of the mayor, reminded the commission that the City of Humboldt has been waiting for the County Commission to make a decision so they can continue on a building in Humboldt to house ambulance and fire trucks.

Chuck Richey stated broad PR coverage was needed; coffee shop talk does not have true figures because they are not out there. They discuss but don’t find out the facts. Half the county should not help the City of Iola run their fire department. He stated that half the population is in the county; approximately 5,000 out in the county and 5,000 in the City of Iola. Discussion followed on funding the fire department.

Vada asked Terry about billing and collections. Terry stated he cannot speak for the city but explained what he does for Allen County. He stated you have to get reports from the ambulance personnel to bill for the funding.

Chuck stated 100 years ago the county had one sheriff, and then the City of Iola decided they needed a police department. Each city does their own thing and the county should not be responsible for paying for their decisions. Discussion followed concerning the history of evolution in Allen County.

Carol Ross, Iola Housing Authority, reported in January of 2012 the regulations changed for Department of Housing and Urban Development (HUD). They have to keep six months reserves which are lower than what had been. Carol discussed moving up projects so they would not lose the funding but they still lost $151,000 subsidy for this year. She requested $2,000; they have it but can’t use it on a lawsuit because it is Federal Funding. It was suggested to her that she request a donation from the City of Iola and/or Allen County. She was told it would take about 12-18 months litigation but probably longer. If successful, it would bring the $151,000 back to the Housing Authority of the City of Iola. Discussion followed. Carol reported the City of Iola did not feel like they could use city taxes for a lawsuit. Alan stated if a decision was to be made, there should be a contract or agreement before consideration. Commissioner McIntosh stated she should find out if the City would go fifty/fifty before they would consider. Commissioners asked about rent payments. Carol stated monies are matched with federal funding. She explained how the process worked. They receive approximately $360,000 annually and fluctuates with rent payments. It changes yearly and they do not know until close to the year. Carol stated they are considered at 250 units or less in size. April 1st to March 31st is her fiscal year. Whereas, City provides ambulance services to the citizens of Iola through its City Fire and Rescue Service; and

Whereas, City and County desire to enter into an agreement whereby County will do the billing for the ambulance runs provided by City Fire and Rescue.

Now Therefore, the parties agree as follows:

Charges for ambulance runs made by City will be submitted by the City to the County for billing and collection. Ninety-two percent (92%) of the amounts collected for the ambulance runs will be returned to the City and the remaining eight percent (8%) will be retained by the County as compensation for its collection activities. After providing any ambulance service, City will provide access to its run reports to County through electronic format as designated by County. County shall provide regular reports to City showing all amounts collected.

City agrees to promptly provide to County for each ambulance trip all the information required to bill the transport: (1) a signed Patient consent form on all trips (2) a signed medical necessity form on trips back to nursing homes. (3) a signed ABN form on all trips that do not have a medical necessity for ambulance transport or for transports that are not to the closest appropriate facility. (4) a hospital face sheet. (5) a complete patient care report.

City is responsible for all fees and documentation related to obtaining and validating their insurance provider numbers to include Medicare/Medicaid and other pertinent insurance provider numbers.

The parties acknowledge that charges submitted to the various medical service payers (private insurers, medicare and medicaid, etc.) for ambulance runs are subject to discounts which vary from one payer to another. It is further understood that payer discounts generally may not be collected from the patient. County will use due diligence to collect the amounts due to City but will not be responsible to compensate City in the event payments are discounted or denied.

On and after the effective date of this agreement, Terry Call, located at the Allen County Detention Center shall act as the designated contact for County unless and until County advises City in writing of any change. [blank], located at Iola City Hall shall act as the designated contact for City unless and until City Advises County in writing of any change.

All ambulance runs which occur after the effective date will be submitted by City to County for collection as set out above.

This agreement may be terminated by either party at any time without cause upon 30 days notice given to the other party in writing. In the event of termination, any City ambulance runs which occur after the termination date shall not be submitted to or collected by County.
